Cub Scouts 2010

The delivery of the Cub Scout Program has received a significant update in order to assist in an increase in advancement recognition, a simplification of the planning of programming, and improve the overall enjoyability of the Cub Scout program for all. As a piloted program for the past 5 years, and currently implemented by over 9,000 units, feedback has been overwhelmingly positive. Retention rates have increased by 20%, den leaders have felt more confident and prepared, and advancement recognition has increased.
